AN ACT TO PROVIDE FOR THE ESTABLISHMENT OF THE CLIMATE RESILIENCE EXECUTION AGENCY FOR DOMINICA (CREAD) AND TO PROVIDE FOR MATTERS RELATED THERETO.

WHEREAS the Commonwealth of Dominica was devastated by Hurricane Maria, which made landfall as a Category 5 hurricane on 18th September, 2017 and caused the loss of approximately 226% of GDP;
And whereas the warming of the Atlantic Ocean and the Caribbean Sea means that the magnitude of the disaster caused by Hurricane Maria could be of increasing frequency and is therefore uninsurable;

And whereas it is necessary that the Commonwealth of Dominica be rebuilt as a climate resilient nation which is better able to withstand future hurricanes, earthquakes and other natural disasters with minimal loss of life and minimal damage to infrastructure, property and livelihoods;

And whereas the Government of the Commonwealth of Dominica is committed to establishing an executive agency to be known as “the Climate Resilience Execution Agency of Dominica” or “CREAD” in order to rebuild Dominica as the first climate resilient nation in accordance with a single Climate Resilience and Recovery Plan developed by the Commonwealth of Dominica and its partners;

And whereas it is intended that CREAD shall serve the interests of the nation of the Commonwealth of Dominica as a whole, giving due consideration to the needs of persons who are vulnerable on account of their age, gender or disability, and that CREAD shall operate to the highest standards of transparency, financial management, accountability, gender-inclusiveness and community engagement;

And whereas it is desirable that due regard be had to applying the principles of gender equality in the structure and operation of CREAD and whereas it is understood for this purpose that “gender equality” means that women, men, girls and boys enjoy the same human rights status, have equal opportunities, equal access and control over resources and equal participation in decision making;
